## Cabins & Winter Destinations in the Nordics

Whether you are looking for a Ski-in and Ski-out cabin, a lodge, or an apartment when you venture into interior Norway for snow-filled winter adventures, there is something for everyone.

We have put together some of our favorite destinations, and if you like what you see, why not check out our holiday cabins and join in all the festive cheer surrounded by snow-crunching bliss?

## Hafjell

Enjoy a relaxing atmosphere in Hafjell Alpine Apartment

In 1994, Norway was host to the Winter Olympics in Lillehammer, and many downhill ski races were held on the slopes of Hafjell. As the third-largest ski resort in Norway and an Olympic arena, it offers around 47km of slopes and several terrain parks with challenges for everyone to participate in and enjoy.

The breathtaking area is just 15km north of Lillehammer and boasts 16 ski lifts with scenic access to glistening slopes full of adventures. With most of the winter lodges and apartments within walking distance of the slopes, you have everything you need in this glorious area. Did you know that the overall drop on the mountain is 857m, and the longest run is 7.5km long? How do you fancy taking on that challenge this winter?

Experience views from the living room and dining room in Hafjell Apartment Geitryggen

The skiing area in Hafjell is mainly on the sunny side of the mountain and is sheltered from the wind, making it the dream destination for your log cabin holiday. From the summit, you can access 300km of prepared cross-country tracks, and those who are active skiers can attempt the Kjus Run. Children's areas can be found in the valley at the top of the Gondola, Mosetertoppen, and Gaiastova on the top of the mountain.

A perfect getaway destination for all the family.

## Hemsedal

Experience a cozy evening at the luxurious Hemsedal Fyri Resort

Hemsedal is otherwise known as the Scandinavian Alps. It is one of Scandinavia's largest ski resorts with more than 50 slopes to choose from, the largest children's ski area in Norway, and the Hallingdal mountain slopes rising to a glorious height of 1,500m. Due to this height, Hemsedal is also Scandinavia's highest lift-served slope. Can you imagine the views?

The Hemsedal skiing area stretches to 1920m and serves all ability levels, from children and beginners to active skiers, with abundant winter snow. Those seeking endless trails will be pleased to know that the area provides 130km of prepared cross-country tracks and 80km of marked mountain trails for Nordic skiing.

Relax in The Skigaarden Hemsedal Luxury Lodges and Apartments

From well-equipped snow cabins, private apartments, and a wide variety of activities available, including dog sledding, horse sleigh rides, and snowmobile, this is an ideal destination for a winter snow break.

**Skeikampen**

A dream-like wintery escape in one of Skeikampen's Cabins

Only 38 km northwest of the Olympic City Lillehammer, Skeikampen resort consists of a small ski village offering excellent accommodation sites in the idyllic landscapes, welcoming restaurants, and charming cafes to indulge in.

Enjoy relaxing family time in a fully furnished Skeikampen apartment.

This is the perfect destination for visitors looking for both excellent alpine and cross-country skiing terrain. During the winter, a massive network of trails over 600km long is situated between the scenic beauty of the surrounding mountains and forest. Twenty-one downhill slopes, a vibrant children's area with two magic-carpet lifts, an ice skating rink, and a sledding area await your arrival for an action-packed wintery escape.

## Kvitfjell

Enjoy a winter escape in Kvitfjell Apt. Yttersvingen D3.5

Kvitfjell has over 600km of cross-country skiing trails. From extremely steep runs to the more leisurely slopes for beginners and families, it guarantees pleasure for all ages. Did you know that Kvitfjell is one of the first ski slopes to open yearly, as snow production covers up to 85% of the slopes? Because of this, this resort has more ski days per year!

Relax in the luxurious and spacious Kvitfjell Apartments

Kvitfjell ski resort's longest run is 3.5km, and the vertical drop is 854m. The snow park has one halfpipe and three quarterpipes to enjoy. Most apartments

have 4-9 beds when you stay in the resort. Some of the apartments can be connected to the neighboring apartment, making it easier for several families to spend quality time together.

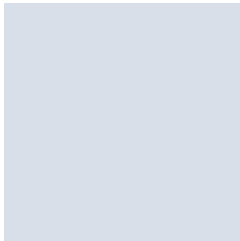

The apartments are exclusive, with great decor, a well-equipped kitchen, a balcony, a field terrace, or a French balcony. The penthouses also have a fireplace.
